

810674

Wireless Holding Wrench, 20"

PRODUCT DETAILS

- Combine the robust technology of our XBee FM 2.4 GHz radios with the high reliability of our SLTC and LTC click wrenches
- Engineered design ensures the holding wrench performed the task for which it was created and it provides feedback to the operator
- Built with the same design as our other click wrenches the flattened case and the bearing supported mechanism ensure repeatability and durability of the highest order
- Global 400 reads the radio signal and a fastener can only be compliant when both the application wrench AND the holding wrench determine the job was done properly.
- PLEASE NOTE: See below for manuals & details drawings; click the drop down menu, click on specific product PDF, click the download button
