10611
Global I/O Multiplier 400

PRODUCT DETAILS

• Quickly adds unique value to your error-proofing operations

• Easy to install and is virtually a PLC that can be configured via the Windows-based Global Manager software

• You won't need to pay someone to program the GIM 40, easy do it yourself

• Sixteen (16) inputs and outputs with LED indicators to make installation easier

• Can be configured for up to 100 binary I/O in conjunction with a PLC

• Corresponding faceplate lights make it easy to install and troubleshoot the configuration of the circuits

• Peripheral devices like light stacks, socket trays, etc that need power, can be powered by the GIM 400

• The GIM 400 gives you control and flexibility over your assembly processes in ways no other system provides

• The Global 400 and GIM 400 error-proofing power duo organizes, manages, directs, and guides the operator, the tools, and multi-step jobs

• PLEASE NOTE: See below for manuals & details drawings; click the drop down menu, click on specific product PDF, click the download button
